TIF.....14, 21 or 28 microns, not sure what that is? Best resolution is preferable. I'll let you know once I get the photos and whether or not further enlargements are required. I want you to get paid asap, so as soon as I get the photos I'll move on the matter. Thanks, Aaron

Aaron,
OK, no problem. Question: What resolution would you like on the digital photo... 14 micron... 21 or 28? Is JPEG OK or TIF?
We are supplying two Contact Prints, 10"x10". And I already enlarged two 8"x10" shots. Hope I picked the proper area. Let me know when you get them.

Dave
